Overflow in CSS

hidden: Content that overflows the box will be hidden.

visible: Content overflows the box, and it will be rendered outside the box.

scroll: Adds a scrollbar to the box, allowing the user to scroll to see the hidden content.

auto: Similar to scroll, it adds a scrollbar only if necessary. If the content fits within the box, no scrollbar is added.

Overflow in Tailwind CSS

Class	Property
overflow-auto	overflow: auto;
